Synopsis:

Johnny Angel, a five-pound Papillon puppy and his best friend, veterinarian Dr. Jessica Dimuzio, recount the struggle to save their beloved park in the newly published children's picture book, *Bark! Bark! Bark for My Park!* This true story shows that no matter what size, age, (or even species) you are, you have the power to make a difference in your world.

"Charming, funny, and ultimately inspiring book (even a dog can fight city hall!)...Kids will identify with Johnny Angel, cheer his victory, and learn valuable lessons about conservation through the tale of this little hero," states Marvin Terban, teacher and award-winning author of 37-plus books for children.

Focusing on saving natural habitats, this book is vibrantly illustrated with pictures by nature photographer Timothy Wood. Appropriate for early elementary school readers, this story will also resonate with dog lovers, conservationists, and kids of all ages.

*Winner of the Society of Children's Book Writers & Illustrators
international Kimberly Colen Memorial Grant Award*
